Hi there, here is the interpretation of the astrological chart that you asked for. Also attached is a .GIF graphic file which depicts your chart wheel. Thank you for visiting the Astrolabe WEB site at <http://alabe.com> This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern

and that you should pay extra close attention to what is said about it. Now, on with your Report!

Name: Eddie

January 8 1953

Lakeland, FL

Rising Sign is in 05 Degrees Scorpio

You tend to be quiet, reserved, secretive and, at times, quite difficult to understand. Others notice your deep emotions and feelings and wonder how to draw you out. Stubborn and tough, you fight for any position you believe in. You are very resourceful and formidable when you become angered or upset about something. You enjoy living life at the cutting edge -- for you life must be experienced intensely and totally. Quite courageous, you are willing to take calculated risks. Easily hurt by others, you often strike back with bitter sarcasm. Sensitive and curious, you are concerned with the deeper mysteries of human psychology. Once you have become interested in any subject, you pursue it with total fanaticism.

Sun is in 17 Degrees Capricorn.

Extremely serious and mature, you are capable of accepting responsibilities and do so willingly. Others expect you to be dutiful as a matter of course. You tend to get angry when people get rewards after not having worked anywhere near as hard as you. You are goal-oriented and an achiever by nature -- you're a hard worker and are justifiably proud of the tangible results of your efforts. You tend to have "tunnel-vision" -- this allows you to block out extraneous matters that might distract others and to concentrate totally on the matter at hand. As such, you are the ideal one to manage or administrate any ongoing project and to be practical and efficient at it. You are not a fast worker, but you are quite thorough. You are known for being totally persistent, tenacious and tireless in reaching your goals.

Moon is in 16 Degrees Libra.

Affectionate, warm and friendly, life must be a "beautiful" experience for you. Unpleasantness should be avoided at all costs. You tend to overlook other people's faults and you would rather give in than fight. You are uncomfortable with strangers, but at ease and sociable with friends and associates. Indeed, you would rather socialize than work -- you can use your prodigious charm to avoid unpleasant tasks. You need the support and assistance of another in order to get you started on any new project -- you are not a self-starter. Be careful of a tendency to be overly self-indulgent (i.e., lazy). Your refined aesthetic sensibilities attract you to music, dance, art and any other cultured activity.

Mercury is in 02 Degrees Capricorn.

You are a careful thinker, very cautious and conservative. You are quite skillful at organizing, directing and planning activities. Practical and useful things interest you -- you are not attracted to abstract thoughts or ideas. With your tendency to be highly focused and very goal-oriented, you have a good head for business. But beware of a tendency to be narrow-minded and dogmatic. Your sense of humor tends toward being earthy and slapstick crude.

Venus is in 03 Degrees Pisces.

You have a dreamy, fanciful, romantic nature and a very creative imagination. Indeed, at times, your private fantasies are more appealing than the reality around you and it is difficult for you to leave them. You tend to be unselfish and giving in relationships and are extremely sensitive of the needs of others. Be very sure that those you help are worthy of your devotion and are not merely taking advantage of your innocence and naivete.

Mars is in 06 Degrees Pisces.

Very sensitive and vulnerable, it is difficult for you to assert yourself. At times, you feel quite tired and you will require a lot of sleep in order to maintain your health and your strength. You are at your best when you act without your ego being important. You can be very unselfish and considerate of the needs of others. You get the most satisfaction by giving to others when you expect nothing in return. Beware of a tendency to want always to work behind the scenes or to become overly deceptive by doing things behind others' backs.

Jupiter is in 10 Degrees Taurus.

Growth only occurs for you after you have found a stable lifestyle and a dependable, protective and secure environment. You are at your best when those around you provide you with a great deal of affection and support. When you feel insecure or threatened, you tend to become possessive and grasping and self-indulgent. You are an inveterate collector with an expensive preference for all the good things that life has to offer.

Saturn is in 26 Degrees Libra.

Although you take quite a while to make decisions, you usually consider all sides to a question, all the pros and cons, and the solution you come up with is very often the correct one. You tend to be very reserved and shy, but, once you make a commitment to someone (in either a business or personal relationship), the partnership is forever. You have a strong sense of justice and fair play and greatly respect the laws and institutions by which you are governed. As such, you are outraged when others break laws or show contempt for authority.

Uranus is in 16 Degrees Cancer.

For you, and for your peers as well, the demand to be free from entangling emotional bonds is of paramount importance. You have a unique and unfettered view of family life and will be attracted to experimenting with freeform styles of relationship commitments. This may lead to a rootless, unsettled lifestyle.

Neptune is in 23 Degrees Libra.

You, and your entire generation, idealize all of the various experimental approaches to relationships -- including "living together", the formation of communes and collectives and the whole concept of "open" marriages. There is a stress on weakened commitments on an emotional and contractual level, but there are heightened expectations of the level of commitment and mutual support on the spiritual and metaphysical level.

Pluto is in 22 Degrees Leo.

For your entire generation, this is a time when the relationship of the individual to society as a whole is being thoroughly re-examined. Major attempts will be made to find a balance between the need to be self-sufficient and the need to honor debts of social commitment.

N. Node is in 12 Degrees Aquarius.

As long as someone else (or a group or organization) appeals to your intellectual sensibilities, you'll try to ally yourself with them in some way. You may find that you always seem to get involved with many wide-ranging groups -- so much so that you find it difficult to fit them all into your busy schedule. Your many friends and acquaintances provide you with needed stimulation. You're loyal and fair-minded -- you try to spend time equally with all your friends, never concentrating on just one or two for any length of time. Although probably quite conservative yourself, you're attracted to those who are a bit offbeat or eccentric -- you enjoy watching their minds work.
