Well ladies and gentlemen, it appears Ebola virus and SARS/Coronavirus all have the same things in common.

Patented by the CDC and Department of HHS in US government, October 2012, under Hussein Obama → a bioweaponized human-Ebola-virus.

Fascinating.

Are all pathogenic viruses man/made?(rhetorical)

The Plan exposes all of it.

Every bit.

It also requires time. It's a race against the clock.
