

## **107 = JFK Jr. ?**

It may not be obvious to an untrained eye, but I made the following points of comparison watching 107's videos where his hands are visible:

1. Overall shape and finger positions, from opened to closed,
2. Quite long thumb, with a rounded tip and long thumb-nail,
3. Shape of index finger, with more pointed tip with relatively small finger nail, the distal phalange slightly curved back, accentuated with age,
4. Unusual long little finger.

Observe and decide for yourself, I have 😊
